

# THE WALL STREET JOURNAL.

## Verification Required

### Why is this verification required?

Something about the behaviour of the browser has caught our attention.

### There are various possible explanations for this:

- you are browsing and clicking at a speed much faster than expected of a human being
- something is preventing Javascript from working on your computer
- there is a robot on the same network (IP 171.64.77.47) as you
